## Change Properties of Matter

*SOL 3.2*

You can use physical properties to talk about different kinds of matter.

### Matching

Property	One that can be observed with the senses.
Physical property	A change in the size, shape, or state of matter.
Physical change	Something that describes matter.

- 1) Here at the Izaak Walton Park, what are some properties of matter that you can observe with your sense of sight?

---

---

- 2) What are some properties of matter that you can observe with your sense of smell?

---

---

- 3) What are some properties of matter that you can observe with your sense of touch?

---

---

- 4) What senses do you think animals here at the park use?

---

---
