

Name: _____

Investigate Daily and Seasonal Cycles

SOL 3.8

You will find out how the movements of Earth give us night and day and the seasons.

1) What is a cycle?

2) What is rotation?

3) How long does it take Earth to revolve around the sun?

4) Why does Virginia have winter in December?

5) Why is the cycle of day and night always 24-hours long?

6) Why do we have different total hours of daylight at different times of the year?
